OASIS-C Certification

This in-depth 1.5 day course will help prepare you for a certification in OASIS-C offered by The Board of Medical Specialty Coding and Compliance (BMSC). The Home Care Clinical Specialist-OASIS (HSC-O) certification assures home health agencies that clinicians are competent in conducting a comprehensive patient assessment and accurately completing the OASIS-C data set. This leads to improved outcomes, accurate claims submission, and prompt payment.

Learn the Complexities of OASIS-C and the Latest updates at this detailed seminar!

Since Oasis-C was implemented January 1, 2010, there have been significant challenges and numerous clarifications and revisions to the guidance. There has been a decrease in case mix weights, indicating that clinicians may not have a clear understanding of the OASIS item-specific instructions. One wrong answer can result in a loss of revenue and lower outcome scores. It's time for staff re-education to improve data accuracy and consistency!

WORKSHOP OUTLINE

- **OASIS and the comprehensive assessment**
- **Time points for OASIS completion**
- **Regulations for OASIS transmission**
- **OASIS item conventions**
- **Chapter 3 – OASIS item guidance**
- **CMS Q&A and most recent guidance**
- **How to answer the process measures and POC/intervention synopsis items**
- **Comprehensive review of wound items**
- **Strategies for accurate assessment of ADLs**
- **Documentation tips to ensure compliance**
- **Chapter 5 resources and links...and MORE!**
